RE: Large Mine Permit Application, M/049/031
Minerals Permit ML 47496-MP

Dear Mr. Sumsion,

The Lehi Quarry is located upon mineral lands administered by the Trust Lands Administration under minerals permit ML 47496-MP. The terms and conditions of ML 47496-MP provide that the Permittee must submit a copy of all mining plans affecting the Permit lands to the Trust Lands Administration for review and approval. Accordingly, please provide me with a copy of all plans and information which you submit to the Division of Oil, Gas & Mining pursuant to your Large-Mine permit application for the Lehi Quarry. The Trust Lands Administration will work closely with the Division of Oil, Gas & Mining to ensure the timely approval of your application. Thank you for your cooperation in this matter.

Sincerely,

John T. Blake
